

General project rubric

The rubric is the same for most projects:

- Start with the max score (ex: 20/20)
- Take off 1 point for a style problem
 - Take off 2 points for a style problem that occurs multiple times
- Take off 2 points for a function problem

As an example, suppose the starter code for Project 2 was submitted to Canvas. The grading would look something like this:

Another Bookstore similarities

- Title text uses AB font (-1)
- Buttons use AB coloring (-1)
- Logo is same as AB logo (-1)
- Category images same as AB images (-2)
- Category names same as AB names (-1)
- Layout similar to AB layout (-2)
- Sidebar header similar to AB header (-1)
- Sidebar text similar to AB sidebar text (-1)
- Header/footer color similar to AB header/footer color (-1)

General Deductions

- Multiple buttons have bevels (-2)
- Cart button should be icon (-1)
- Cart count should overlay cart icon (-1)
- Login button should be initials or name (-1)
- Search button should be icon (-1)
- Search button has incorrect placement (-1)
- Search button should not be right next to search box (-1)
- Search box should be styled (-1)
- Title text and search elements not aligned well (-1)
- Cart/login/category-dropdown not aligned well (-1)
- Hover dropdown button for categories should include an icon (-1)
- Header elements should be dispersed more (-1)
- Footer elements should be dispersed more (-1)
- Social media buttons should be icons (-2)
- Footer should contain copyright (-1)
- About/contact/directions text hard to read (-2)

- Read-now buttons should overlay book images (-1)
- Add-to-cart buttons should not stretch the width of the book box (-1)
- Read-now buttons should not appear on every book
- BG Hover color in navbar should not be the same as the selected button BG color (-1)
- Long book titles (ex: The Brothers Karamazov) should wrap (-1)

The total number of deduction is more than 20, so the score for the project would be (0/20)
